The internet is overflowing with Lightroom presets. A huge number of photographers and designers are developing their own Lightroom presets and either making them available for free on the internet or selling them on various websites and platforms. There are countless presets available from various sources. Some photographers or photo retouchers get very good at what they do and actually end up preferring to sell out their secrets in the form of their own creative set of presets (that is an excellent way to). If you are on this page, you are likely to be looking for some of the best free Lightroom presets yourself so that you can process your images with the least number of clicks and spend more time behind the camera than in front of a computer screen. Related Post: But not everybody can afford to spend hundreds of dollars on Lightroom Presets, at least not early in their career. These include cool effects like Bitchin' Summer, Winter Haze, Cole's Bangin' Bright B&W, Old School Sepia and Faux Film.
