2. [windows stuck on loading files](#)

Usually, the Update percentage in such cases ranges from 55% to 99% and sometimes it can be more than 100%! Restart Computer Major Windows Updates can be quite large and it takes a long time to download and install major Windows updates on your computer.. However, if your computer is stuck for more than 5 hours at "Working on updates" message, it is time to Force Shut down your Computer by pressing and holding the Power button.. Stuck Windows 10 Update Ideally, your computer should be downloading and installing Updates silently in the background, allowing you to use your computer without any interruption.. Hence, it is always a good idea to be patient and give your computer enough time to download and install the updates.
